EXPERIENCE

Jul 2022 - Present

ByBinary S.A.S

Frontend Developer

Revamped technological infrastructure and developed modules for CRMTool, reducing order processing time by 70%. Contributed to IT Tool project, focusing on real-time data collection and management. Led the creation of CRM Channel platform for use in internal processes and connection with external customers.

Technologies: HTML, CSS, JavaScript, Vue.js, AWS, Figma, Electron JS, SASS

Feb 2022 - Jul. 2022

Neivor

Frontend Developer

Contributed to Neivor's web and mobile applications by developing frontend features for condominium financial management, addressing mobile app bugs, and implementing multilingual support. Deployed in Mexico and Colombia

Technologies: HTML, CSS, JavaScript, Vue.js, JSF, Java, Figma.

Feb 2021 - Feb. 2022

TEK Soluciones Tecnológicas

Frontend Developer

I spearheaded the development of CRMTool, an application designed to streamline the management of purchase orders, spanning from initial customer quotation creation to logistic dispatch of goods. Presently, the platform serves a user base of 45 individuals.

I actively participated in controlled user testing across both test and production environments, collaborating with real users to ensure optimal functionality.

Within the UX/UI domain, I played a key role in decision-making processes, leveraging insights into user needs to guide our development approach.

Technologies: Vue, Vuex, Git, CSS, AWS, UX, JS, Figma.
